

# Matthew C. Sherman

## Objective

I am a self-motivated, goal driven individual who is always in pursuit of perfection in my work. I am looking for a job where I can learn, gain skills, and grow both personally and in my technical expertise and knowledge.

## Qualifications

- Experienced in directing all-things-technology for a medium-sized organization.
- Experienced in configuring and installing Intel based servers, PCs, and printers on a LAN environment using any MS Windows OS using IP networking.
- Experienced in staging personal computers and Windows servers.
- Experienced in developing and maintaining websites using Macromedia Dreamweaver, Flash, and Adobe Photoshop on Microsoft IIS webserver.

## Experience

*August 2005-Present*                      *Odyssey Academy*                      *Galveston, Texas*

### **Technology Director**

- Maintain, support, coordinate, and plan technology purchases and implementation of hardware, software, and training for the Odyssey Academy school district.

*September 2004-August 2005*    *Clear Creek I.S.D.*                      *League City, Texas*

### **Campus Computer Technician**

- Maintained and supported the computers and software at two Clear Creek I.S.D. elementary schools.

*2001-September 2004*                      *Data Functions, Inc.*                      *Dickinson, Texas*

### **Software Programmer / Customer Support**

- Developed applications in use by our customers using Visual Basic, Visual C++, CGI, Active Server Pages, VBScript, and Javascript.
- Frequently provided phone support and personally visited Data Functions' customers to provide support for software and network problems.
- Frequently built, configured, and set-up computer workstations for Data Functions' customers.
- Developed and maintained the Data Functions website.

*January 2003*                      *National Football League*                      *Houston, Texas*

### **Student Intern**

- One of eight UH students chosen for internship during Super Bowl XXXVIII.
- Set up NFL offices (Computers, printers, network, and routers) at the Hilton of the Americas, the Astrodome, the George R. Brown Convention Center, and Reliant Stadium.
- Provided technical support in conjunction with the NFL technology department for NFL staff and media personnel.

## Education

*1999-2005*                      *University of Houston*                      *Houston, Texas*

- Graduated with a B.S. in Information Systems Technology.
